

POWER Engineers selects Microsoft Dynamics 365 and aec360 to drive cloud transformation initiative.

Leading global multidiscipline firm migrates to the Microsoft cloud and Dynamics 365 to drive strategic business system transformation.

Atlanta, GA – June 29, 2020: 360 Solutions Group today announced that leading multinational AEC firm POWER Engineers has selected Microsoft Dynamics 365 and aec360 as the firm's next generation cloud-based business software platform. As part of this transformation initiative, POWER will deploy Microsoft Dynamics 365 and aec360 to enable an integrated platform that will help them optimize their marketing, business development, project management, accounting, and human resource management practices.

Founded in 1976, and with more than 2,700 employees working in 45 offices across the US and internationally, POWER Engineers is a global consulting engineering firm offering complete multidiscipline engineering, architecture, and program management services. The firm specializes in delivering integrated solutions across the energy, food and beverage, facilities, communications, environmental, and federal markets. POWER consistently ranks among the Top 100 engineering design firms in the country.

"POWER has expanded very quickly from a company of a few hundred people to a company with more than 2,700 employees," said Jim Haynes, Chief Administrative Office for POWER Engineers. "We need a system that can scale with us in the future. Microsoft Dynamics and aec360 will help all of our businesses spend less time crunching data and more time making informed decisions that help our clients achieve their project goals, thereby helping all of us at POWER achieve our goals."

Microsoft Dynamics 365 is Microsoft's next-generation business application suite, built to leverage the power of the Microsoft Azure cloud, Office 365 suite, Power Platform, and Microsoft's advanced intelligence tools. 360 Solutions Group's aec360 industry solution pre-configures and extends Microsoft Dynamics 365 to meet the unique needs of the AEC industry, and will allow POWER to efficiently manage their finances, projects, clients, and people within a single platform.

"POWER Engineers has been a respected leader in the global AEC industry for many years," explained Andy Yeomans, Executive Vice President at 360 Solutions Group. "Their selection of Microsoft Dynamics 365 and aec360 is further validation of the leadership position that Microsoft and 360 Solutions Group are carving out in the AEC software market. We look forward to helping POWER drive this important transformation initiative and position their firm for continued growth and success well into the future."

About aec360

A key offering from 360 Solutions Group, Microsoft's leading provider of Microsoft's Dynamics™ 365 solutions and services to AEC firms, aec360 is a next-generation cloud-based business platform designed to meet the unique needs of the AEC industry. aec360 provides an integrated industry solution for marketing and business development, project management, accounting, and human resource management, and was built to leverage the best of the Microsoft cloud, helping AEC firms to drive productivity, collaboration, and insights across their organization.
